

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF Memo to File

DATE January 6, 1976

DEPARTMENT _____

Re: H. & M. Oil Co.
918 E. Kearney (Ph. 866-9048)

At approximately 10:15 A.M. received a call stating that there had been a gasoline spill at 918 E. Kearney. Upon arriving at approx. 10:30 A.M., it was found that apparently a tank truck (owned by Transportation Delivery Co.- Mr. Bob Goff - Ph. 831-2493) had been filling an underground tank and over-filled it. Approx. 35-50 gallons was spilled. The Fire Department was on the scene and flushed the area, only after it was determined that there was a fire hazard to the business next to H. & M. Oil Co. The Fire Dept. used only enough water to eliminate any fire hazard. A dam was constructed at the intersection of Boyer & Summit Ave. in a dry creek bed. Upon completing the dam a fire hydrant was opened above the point of the spill in order to flush the gasoline out of the closed storm box and into the dry creek bed. At this point the gasoline, mixed with approx. 4,000 gallons of water, was held and allowed to evaporate.

Mr. Goff was contacted by Mr. Harry Criswell, of this office, and was informed of his obligation to report the spill to the proper authorities. Mr. Goff agreed to do so.
